Automation Designs and Solutions

Teaming with technology around the world to bring better solutions for you.

Criminal Justice Software Solutions

Management of information and records are crucial to our Courts and Law Enforcement agencies. For over 19 years, Automation Designs and Solutions, Inc. (AD&S) has been dedicated to bringing software solutions to these governmental and law enforcement agencies with our Criminal Justice Tracking System (CJTS) software.

CJTS provides the way to input, track and manage all facets of the law enforcement and the municipal court systems. No municipality is too large or too small for the capabilities CJTS has to offer. From a single workstation to a network of multi-users the technology and features CJTS provides eliminates duplication of work and offers a seamless workflow from the beginning to the end of the law enforcement and judicial processes.

Let's look at some of the features CJTS has to offer.

If you'd like to see a demonstration of CJTS for yourself, or need additional information or assistance, please contact us.

Fingerprint Submission and Criminal History Records Check Solutions

inVize ID developed by i3, provides a low cost, high quality solution to the problem of delivering your fingerprints to your State's Criminal Information Center and subsequently to the FBI for a fingerprint submission and background check. It's all possible with an inexpensive desktop scanner or a live scan and the inVize ID software. inVize ID software is fully compliant with all ANSI/NIST requirements and has been certified by the FBI.

For further information please contact our sales and marketing staff.
